FEEDBACK

Our first time spent with Spacelines From the Far Out was a chaotic wild ride! As a group of three streamers, we are always looking for co-op games, and this one definitely put our teamwork to the test. We loved the easy to learn approach, making it great for new players to jump in. The Twitch integration made the game even more engaging for our community as well. One aspect we were pleasantly surprised by was how deep the roguelite mechanics went. Being able to upgrade our ship, unlock new blueprints and characters, and even insuring our ship provides an endless amount of replayability.

THE FAM AWARDS

Since 2018 we have hosted **The FAM Awards**, our own annual award show and preshow for The Game Awards. During the show we announce games that have won in various categories, based on votes from ourselves and our community. After the awards, we transition into a co-stream of The Game Awards to watch along with our community.

EVENT HOSTING

In celebration of **E3 2021**, we hosted a watch party for this year's showcases where we live streamed the show from the venue with our attendees, including pre and post shows hosted by FAM and local co-hosts. We also created a themed cocktail menu, and played E3 Bingo, with prizes going to the winners.
