FEEDBACK

As an avid fighting game fan, playing God of Rock was a welcome breath of fresh air. I had a great time watching (and hearing) these two genres come together. Many fighting games have great OSTs, but this one had a diverse track list (and cast of characters) that had my listening to these songs even after I was done playing. I can't wait to see the FGC get their hands on this game, and I look forward to see what's to come in the future.

THE FAM AWARDS

Since 2018 we have hosted **The FAM Awards**, our own annual award show and preshow for The Game Awards. During the show we announce games that have won in various categories, based on votes from ourselves and our community. After the awards, we transition into a co-stream of The Game Awards to watch along with our community.

EVENT HOSTING

In celebration of **E3 2021**, we hosted a watch party for the summer showcases where we live streamed the show from the venue with our attendees, including pre and post shows hosted by FAM and local co-hosts. We also created a themed cocktail menu, and played E3 Bingo, with prizes going to the winners.
